

Flying & Crawling Insect Killer

S3371

In the air and on the ground, this easy-to-use, water-based product controls over 15 types of indoor and outdoor pests. EPA registered and USDA classified.

Where To Use

For use in nonfood areas of commercial, industrial and institutional buildings and in households to kill common pest like:

Flies	Spiders	Mosquitoes	Brown Dog Ticks
Fleas	Crickets	Centipedes	Carpet Beetles
Ants	Small Moths	Cockroaches	

Directions

Follow all precautions on back label of can. For flying insects, close all doors and windows and direct the spray upward into the center of the room with a slow sweeping motion. Hold spray for 5-10 seconds for an average size room. Keep the room closed for 15 minutes after spraying. Ventilate the room thoroughly before re-entry. Sweep up and discard fallen insects. For crawling insects, direct spray on as many of the insects as possible as well as any parts of the room where it is suspected the insects may be harboring. Special attention should be paid to cracks and crevices, under stoves, refrigerators, behind counters etc. See container for more specific directions on other insects.

Technical Specifications

CAN SIZE: .. 20 oz.	NET WEIGHT: 15 oz.
ODOR: Floral	USDA RATING: F2
TYPE:..... Aerosol	PROPELLANT: Hydrocarbon
pH: 7.5	SPRAY PATTERN: . Fine Fogging Mist
COLOR: White Emulsion	FLAMMABILITY:..... None-per 40 CFR 156.10
