

A high foaming concentrated vehicle wash for added shine and appearance.

Where To Use

Truck washes	Hand vehicle washing	Self serve car washes
Car washes	Automatic car washers	
Fleets	Pressure washing	

Dilution

Hand Washing – 1/128 (1 oz. per gallon)
Automated Equipment – 1/150 (3/4 oz. per gallon)

Directions

For hand washing of vehicles, dilute product in bucket using warm water. Rinse heavy dirt and soil from vehicle and apply solution with soft brush or sponge. Wash vehicle in sections rinsing in between so solution does not dry. Give vehicle a final rinse and towel dry, if desired.

For mechanical equipment in a car wash, dilute using a hydrominder, metering pump or Dema device to dilute as directed or diluted to produce the desired appearance on the vehicle.
