

**sealtite**  
**PRO**

**For high-speed tires only!**

**PROVIDES  
SMOOTHER  
RIDE**

*A smoother ride through hydrodynamic balancing*

- ✓ **Less driver fatigue**
- ✓ **Less vibration on all vehicle components**
- ✓ **More even tread wear over the life of the tire**
- ✓ **No more lead weights for balancing**

Following installation of SIMONIZ sealtite PRO®, you will begin noticing the effects immediately. In fact, SIMONIZ sealtite PRO® lessens the overall vibration associated with tire imbalance, wheel assembly imperfections, uneven roads and trailer loads. SIMONIZ sealtite PRO®'s smoother ride will reduce uneven wear patterns associated with an unbalanced tire, and reduce rolling resistance for better fuel mileage. Last but not least, the driver will feel enhanced comfort resulting in decreased fatigue.

SIMONIZ sealtite PRO® will remain effective for the life of the tire. As opposed to powder balancers on the market, there is no need to worry about water from air lines clumping the product.
